

DATA SHEET

ACO are pleased to announce the introduction of the new ACO RoadDrain® 200 Multifunctional End Cap. A single unit suitable for the closing, and outlet/inlet of a run of RoadDrain®200 channel.

The new Multifunctional End Cap unit provides a solution for all depths of RoadDrain® 200, all within a single unit.

**Benefits**

- A single unit to fit all three depths of standard channel and access units
- Allows you to close off a channel run, and also have an option to connect pipework via the spigot connection for inlet/outlet to 160mm dia. pipe
- Removes the requirement for different end caps for different depths, which can be confusing
- Reduces our A1-A3 carbon emissions by up to 96%
- Can also be used with the TramDrain 200 system

ACO RoadDrain® 200 Multifunctional End Cap
